

The Jefferson
SERIES

A unique palette inspired by Colonial America and the legacy of Thomas Jefferson

Jefferson's Monticello,

The plantation at Monticello (Little Mountain) provided spectacular views in every direction and served as a continual experiment in the art of building. The selection of the site, more than 500 feet above the Rivanna River, was altogether daring and original and provided a host of challenges to the builders.

Jefferson's legacy as a founding father is well-documented in the course of American history, but his leadership in the art and science of construction is equally revered. His insatiable curiosity still resonates with us today as we continue to innovate and implement new products and technologies.

Endicott Presents

The Jefferson Series

Welcome to a unique palette inspired by Colonial America and the legacy of Thomas Jefferson – president, statesman, architect. These classic colors and distinctive textures capture the essence of an era known for its rugged individualism and boundless optimism. With Endicott's commitment to quality and innovation, you'll find The Jefferson Series welcome inspiration to help you create a project like no other.

MONTICELLO

Monticello is rich and lavish, like the man who not only inspired the famous residence but set a new standard for our burgeoning nation. In Jefferson's day, most brick used in America was imported from England. But Jefferson had a different plan for Monticello, building it with brick made from clay native to the property. Endicott's Monticello is just as original as Jefferson's dream for one of America's most enduring landmarks.

CONTINENTAL

Warm and inviting, the rich, comfortable palette of Continental hints to Jefferson the caretaker – carefully knitting the fabric of our great nation from all four corners. Jefferson was regarded as the father of America’s continental expansion, guiding the largest land acquisition in our nation’s history. Endicott created Continental as an elegy to Jefferson’s vision for all that can be great and prosperous.

RUSHMORE

Bright and lively, Rushmore invokes the essence of the enduring monument that showcases our third president. Jefferson was selected for inclusion in the Rushmore sculpture because of his role in expanding the scope of our great nation. Endicott honors Jefferson’s commitment to building and development with Rushmore – a color that invites the great outdoors to mingle with the spirit of the West.

PATRIOT

Patriot is grand and sumptuous. Its distinctive Ironspot characteristics pay homage to Jefferson's boundless optimism and reflect his sophisticated taste. Warm and confident, it dignifies his passion for the promise of America and credits his exuberance for the unique contributions of every man. With Patriot, Endicott pays tribute to our founding father's legacy of individualism.

LIBERTY

Liberty is bold and luxurious. This timeless classic is inspired by one of Jefferson's most prevailing concepts, a courageous dream of independence that began as a cry for freedom and culminated in the birth of our great nation. In Liberty, Endicott captures one of Jefferson's most significant and enduring principles – offering you the freedom to make your own personal statement.
